A drilling process presents a rotating drill string which is placed into the well. A drilling fluid is pumped through the drill string and exits through the choke valve . There are many disturbances that produce fluctuations in the annulus pressure during oil well drilling. SMART MONITORING AND DECISION MAKING FOR REGULATING ... - There are a number of different standard types of control systems that have been studied extensively. These controllers, specifically the P, PD, PI, and PID controllers are very common in the production of physical systems, but as we will see they each carry several drawbacks.
